## Protect Your Family

Do you know that it's a mighty safe business policy to lay by a little for a rainy day? The best investment you can possibly make is to take out a policy in

The Northwestern Mutual  
Life Insurance Co.

Either straight life or endowment. You are then laying up a little all the time, and besides you have the assurance that should anything happen to you, your wife and babies, mother or sweetheart, as the case may be, will be left with an estate for their care and protection.

Don't put it off. Right now is the safe time. See about a policy before it is too late.

## Dufferin's Warning Dream.

There are many stories on record of the warning dream. The late Lord Dufferin when in Paris dreamed that he was in a hearse being conveyed to a cemetery. A few days later as he was about to enter a hotel elevator he was startled to observe that the attendant was the living reproduction of the driver of the hearse in his dream. He stepped back, and the lift went up without him. Before it had reached the top of the building some breakage took place in the mechanism, and the lift crashed down to the bottom, every one in it being killed.

## Too Much Music.

Street singing is an especially Neapolitan institution, and when for the first time one hears beneath his windows the more often than not off key versions of the snappy, lilting, inexpressibly infectious Neapolitan songs he is enchanted and throws pennies freely. After a week or so of it as a steady diet, day and night, he inclines much more toward heavy crockery.—National Geographic Magazine.

## His Idea.

"Would you say that marriage is a failure?"

"Not exactly; it's more like a business venture."

"In what way?"

"Well, you can't blame the business for the failures that get into it."—Detroit Free Press.

## Saving Money.

Mrs. Muggins—Don't you ever try to save any money? Mr. Muggins—Sure. I save \$4 today. Borrowwell struck me for \$5, and I only let him have \$1.—Philadelphia Record.

Make a list of requirements such as beauty, comfort, convenience, horsepower and the like.

Overland has won the verdict of over 400,000 owners after a comparison of such items.

If this is not enough to convince you, then judge your Overland by what you cannot see.

You cannot see the accuracy, the minute care, nor the patient perfecting that are practiced in Willys-Overland manufacturing methods.

But you may know that these things are definite Willys-Overland accomplishments—else it would never have been possible for us to market those 400,000 cars.

You cannot see the quality in the materials—the scientific reasons for designs, nor the proven superiority of every part and principle.

These things, and the millions in economies effected by Willys-Overland's vast production, are vital factors in your car although not visible to the layman's eye. But they are visible to the layman's reason—they are seen in continued consistent performance—and they are shown convincingly in the price that gives you a better car for less money.

The Big Four—the car that made Overland—exemplifies this excess value. The experience accumulated in the building of over 300,000 similar four-cylinder Overlands has contributed directly to the development and perfecting of this model.

Test its superior mechanical excellence and remarkable easy riding qualities—come in and judge for yourself its incomparable beauty of design.
